### TAFTVILLE

The Norwich police made a sudden visit in the village Wednesday night, in search of a Hudson car belonging to Dr. Wilson of the state hospital that was stolen that same night but was recovered the next day.

The electric current was off all day on account of men stringing a new wire to the ice house on the outskirts of the village.

A nearby farmer and a local butcher had a lively argument yesterday about roosters, and the butcher warned that the farmer could not produce a rooster that weighed eight pounds dressed. The farmer went home and came back with a nine and one-half pound rooster.

The Children of Mary society held a reception in Sacred Heart church, receiving many new members.

A pleasing and successful whist was held in Parish hall, Wednesday evening, given under the auspices of the Children of Mary society, of the Sacred Heart church. The whist was largely attended.

## NORWICH WAITING TO HEAR RESULT OF TROLLEY FARE REDUCTIONS ELSEWHERE

The directors of the Chamber of Commerce held a meeting at the Wauregan hotel Thursday noon, three directors being out of town and nine present.

Auditor E. R. Von Horn submitted his report for October and November, which was accepted.

The directors discussed at length the bill of fare reduction on street railway fares. At the Chamber of Commerce meeting last Monday night in the Buckingham Memorial, which was addressed by President L. S. Storrs of the Connecticut company and R. W. Perkins, receiver of the Shore Line company, the facts presented by them were considered. The public utilities commission commanded the Connecticut company to make a five cent fare trip in Norwich and Bridgeport for a period of 90 days as a test of yielding sufficient revenue to meet expenses. It was the opinion of the directors that the results of this experiment would be of great value in determining the matter of reduction of fares in these cities came directly from the public utilities commission and not at the result of any efforts on the part of the Connecticut company.

The personnel of the various committees authorized by the directors at their last meeting was made as a report of progress.

The directors expressed their sincere appreciation for the splendid civic spirit manifested by the New London-Norwich sign company for the excellent billboard advertising in Franklin square gratuitously maintained by the company for the benefit of Norwich.

## To Relieve Catarrh, Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deafness, or who are growing hard of hearing and have head noises, will be glad to know that this distressing affliction can usually be successfully treated at home by an internal medicine that in many instances has effected complete relief after other treatments have failed. Sufferers who could scarcely hear had their hearing restored to such an extent that the tick of a watch was plainly audible seven or eight inches away from either ear. Therefore, if you know of someone who is troubled with head noises or catarrhal deafness, cut out this formula and hand it to them and you may have been the means of saving some poor sufferer perhaps from total deafness. The prescription can be prepared at home and is made as follows:

Secure from your druggist 1 oz. Parmit (table strength). Take this home and add to it 4 pint of hot water and a little granulated sugar stir until dissolved. Take one tablespoonful four times a day.

Parmit is used in this way not only to reduce by tonic action the inflammation swelling in the Eustachian tubes, and thus normalize the air pressure on the drum, but to correct any excess of acid which is the middle ear, and the results it gives are nearly always quick and effective.

Every person who has catarrh in any form, or distressing, rumbling, hissing sounds in their ears, should try this recipe a trial.

WATCHED FOR RUM RUNNERS AT PLEASANT BEACH

That a mysterious schooner, suspected of having a cargo of alcoholic liquors, has been seen off Pleasant Beach was a rumor that caused the prohibition law enforcement officers to maintain a vigil for three night this week. The officers were in the hope of intercepting any contraband that might be landed. They saw the boat, but as no effort was made to bring anything ashore they had their labor for their pains. Wednesday night the schooner disappeared.

It is rumored that ever since last August a boat has been appearing at intervals off Pleasant Beach and that at night it would send ashore liquors which were landed at Booth Bros' wharf where they were taken on motor vehicles and rushed to New Haven and other places in the western part of the state to alleviate the thirst of those whose cellars were not properly supplied for the prohibitory drought.

As similar methods have been employed in other parts of the country to get alcoholic liquors to places from which they were prohibited, it is not surprising that the officers have made it a point to investigate and the last few nights' watch has been a part of the plan of campaign to bring about a cessation.

If the mysterious boat had liquor in board it is evident that the persons in charge had some kind of a tip that prevented them from trying to get the contraband ashore.

East Hampton.—Word was received Monday of the death of Ed. W. Lathrop, 85, of Waterbury. Mr. Lathrop was an annual visitor here for many years.

### PUBLIC SCHOOL PUPILS SHOW

**VISUAL EDUCATION WORK**  
The public school educational week exhibit in the Plant-Cadden Co. window on Main street, attracted much attention Thursday. In the morning the modern method of teaching history was shown. Classes were seen studying different epochs on outline maps sketched on a blackboard, showed the following periods in history: period of exploration, the United States in 1492, the succeeding states, Campaign of the Mexican war and the acquisition of territories. This exhibit featured Seventh grade work.

Throughout the day classes in geography were seen hard at work studying the map of the United States. Pupils were seen studying the map of the United States from lantern slides. A total of 600 lantern slides are used in this work in the schools. A lantern set up in a small booth showed some of these slides, which depict the life and customs of various countries.

There was also shown a group studying pictures, charts and illustrated magazines in connection with various countries. Pupils were seen studying the surface of the United States from a relief map, and there was a pupil filling in a problem-project map with colored crayons. The pupils seen in this exhibit were Seventh grade pupils from the Broadway school.

Mt. Pleasant street school pupils were seen studying South America, surface features, industries, products, commercial routes, imports and exports.
